Immigration Will be Heavy. I. W. Williams of Purcell, a well known citizen of that place, was in the city this morning and he stated that he felt positive that the Canadian Valley road would be built from Lehigh to Chickasha via Purcell. This line will open a fine agricultural country and it is promoted by Chicago capitalists.

Mr. Williams said that he could conceive of no richer spot in the entire South than the Chickasaw nation and he predicted that the immigration to this section in the near future would be very great. He also said that hundreds had settled in this nation in the past six months and that much new land had been cleared and broken. He regards the Chickasaw country a garden spot for agricultural purposes.

## Road Work.

Mike Gorman, who has had charge of road work in this immediate section was asked this morning by a reporter for the Ardmoreite the condition of roads. He said that the highways were in fairly good condition and that a great deal of work, however, would be done toward improving them in time for fall trade. Mr. Gorman says that a new bridge will have to be built over Caddo creek on the Woodford road and that the bridge on Caddo on the Springer road is in need of repairs. He will be in charge of this work and funds will be raised for the purpose.

The merchants have spent a great deal of money on roads in this country, but it has accrued to their advantage. A road law is badly needed in the Territory and congress will be asked to enact a good one during the coming session.
